

# Interesting Examples of Individual Observation for Calculation of Arithmetic Mean

## Example 1: Daily Coffee Sales

|              |    |    |    |     |    |     |     |
|--------------|----|----|----|-----|----|-----|-----|
| Observations | 85 | 92 | 78 | 110 | 95 | 130 | 120 |
|--------------|----|----|----|-----|----|-----|-----|

Question: Calculate the Arithmetic Mean.

## Example 2: IPL Batsman's Scores

|              |    |    |    |     |    |    |    |
|--------------|----|----|----|-----|----|----|----|
| Observations | 48 | 75 | 12 | 101 | 56 | 89 | 34 |
|--------------|----|----|----|-----|----|----|----|

Question: Calculate the Arithmetic Mean.

## Example 3: Online Shopping Orders

|              |   |   |   |   |   |   |   |
|--------------|---|---|---|---|---|---|---|
| Observations | 3 | 5 | 2 | 8 | 6 | 4 | 7 |
|--------------|---|---|---|---|---|---|---|

Question: Calculate the Arithmetic Mean.

## Example 4: Daily Mobile Screen Time (hrs)

|              |     |     |     |     |     |     |     |
|--------------|-----|-----|-----|-----|-----|-----|-----|
| Observations | 3.2 | 4.5 | 2.8 | 5.1 | 4.0 | 3.7 | 4.2 |
|--------------|-----|-----|-----|-----|-----|-----|-----|

Question: Calculate the Arithmetic Mean.

## Example 5: Food Delivery Time (min)

|              |    |    |    |    |    |    |    |
|--------------|----|----|----|----|----|----|----|
| Observations | 24 | 30 | 28 | 35 | 22 | 40 | 27 |
|--------------|----|----|----|----|----|----|----|

Question: Calculate the Arithmetic Mean.

## Example 6: YouTube Views ('000)

|              |    |    |    |    |    |    |    |
|--------------|----|----|----|----|----|----|----|
| Observations | 12 | 18 | 25 | 15 | 30 | 20 | 16 |
|--------------|----|----|----|----|----|----|----|

Question: Calculate the Arithmetic Mean.

## Example 7: Daily Steps

|              |      |      |      |      |      |       |      |
|--------------|------|------|------|------|------|-------|------|
| Observations | 6500 | 8200 | 7300 | 9100 | 7800 | 10500 | 8600 |
|--------------|------|------|------|------|------|-------|------|

Question: Calculate the Arithmetic Mean.

## Example 8: Monthly Electricity Bill (₹)

|              |      |      |      |      |      |      |
|--------------|------|------|------|------|------|------|
| Observations | 1650 | 1820 | 1950 | 2100 | 2450 | 2350 |
|--------------|------|------|------|------|------|------|

Question: Calculate the Arithmetic Mean.

## Example 9: Startup Salaries (₹)

|              |       |       |       |       |       |        |
|--------------|-------|-------|-------|-------|-------|--------|
| Observations | 28000 | 30000 | 32000 | 35000 | 40000 | 350000 |
|--------------|-------|-------|-------|-------|-------|--------|

Question: Calculate the Arithmetic Mean.

### Example 10: Attendance (days)

|              |    |    |    |    |    |    |    |
|--------------|----|----|----|----|----|----|----|
| Observations | 92 | 88 | 95 | 90 | 85 | 97 | 93 |
|--------------|----|----|----|----|----|----|----|

Question: Calculate the Arithmetic Mean.
